

INVISIBLE CARE BY SPECIAL EFFECTS

for your safety & comfort

www.speceffect.com

Your well-being is our priority. Our goal is to regain attendees' trust in live events by providing carefully crafted protective solutions while focusing on the guest experience.

CREATIVE SETUPS

Your event setup can be comfortable, exclusive and safe at the same time. We blend all your preventive efforts with our creativity seamlessly to deliver the maximum comfort for your guests.

HANDLING AV EQUIPMENT WITH CARE

We ensure that everything you touch meets the highest level of hygiene requirements. We use properly disinfected and dedicated audiovisual equipment, single-use accessories and provide mobile hand sanitizer stations at your event.

NEW TECHNOLOGIES

Connect with care by using cutting-edge, interactive technology. When audiovisual services are combined with a smart and appealing digital conferencing tool, networking is easy, convenient and if so desired, contactless as well.

For virtual or hybrid events we offer enhanced visual and unique interactive elements to keep your attendees engaged.

CUSTOM-MADE SOLUTIONS

A great event lies in the details. We are committed to implementing customized solutions with a sense of security when offering attractive stage designs or contactless interactive solutions to engage your audience.

Ensuring your guests' personal space and maintaining their coordination can be invisible and fun at the same time. We provide convenient solutions with safety in mind.

EDUCATED CREW

Our well-trained crew members comply with all the required policies and are ready to apply protective measures throughout your event to assure the comfort and safety of your guests.
